BLUEBEAMMEUP!

MONTHLY

Hi,

Happy August! I hope you're enjoying the summer vacation.

As a business owner of a Bluebeam reseller, I'm always excited to share the latest news and updates with you. With so many changes in the Bluebeam world and an ever-changing licensing model, the team at **Brighter Graphics** and I thought we would launch a new monthly guide to keep you up to date of all the wonderful things we have been working on and things that you may find useful in getting the most out of your Bluebeam software.

- **New Bluebeam Release** – Bluebeam recently released the latest version of their software, Bluebeam Revu v21. This release includes several new features and improvements, including a new 3D viewer, enhanced markup tools, and improved collaboration capabilities in the cloud.
- **Bluebeam Training** – We're offering a variety of Bluebeam training courses this month. Whether you're a beginner or an experienced user, we have a course that's right for you.
- The hugely popular **BluebeamMeUp! Webinar Series** hosted by our dear friend and colleague, Troy DeGroot.
- **End of Life (EOL)** for Perpetual Maintenance Renewals and the things to consider.
- **Bluebeam Subscription FAQs** – We get asked this all the time so here we cover the most asked questions.

I hope you'll take some time to check out these resources. As always, if you have any questions, please don't hesitate to contact me.

Thanks,

Shan Chaudri
