JUNE 2024

# BLUEBEAM PRICE INCREASE

10%

Effective **June 1, 2024**, Bluebeam has implemented a subscription price increase for its **Basics**, **Core**, and **Complete** plans. This adjustment reflects the first price increase since the launch of Bluebeam subscriptions in September 2022 to improve the service and bring innovation for Bluebeam users. The new pricing will support continued investments in product enhancements & new features, such as the recently added Auto-Align in Revu's Overlay & Compare functions and improved Single Sign-On (SSO) capabilities.

Existing customers with Legacy converted Subscriptions (that upgraded from Active Maintenance) will not see a price change on June 1, as their pricing already increased by 10% in January 2024. Bluebeam remains committed to providing high value and return on investment to its users, ensuring that the increased subscription costs fund meaningful & continuous improvements that enhance productivity and efficiency.

## CREATING EXCEPTIONAL LIVES COUPLE'S EXPERIENCE INSPIRES ACCESSIBLE HOLIDAY HOMES

Brighter Graphics are proud to support a home-grown charity that has created London's first fully accessible, contemporary single storey holiday home, enabling physically disabled people & their families the opportunity to explore our capital city.

In February this year, Brighter Graphics sponsored Cara & her family to have a long weekend at Able Stay.

*"AbleStay runs a Funded Stay programme for those families that otherwise couldn't afford a visit to London. Without the generosity and kindness of organisations like Brighter Graphics, families such as the Maudes would not have the chance to experience everything that is best about our Capital and stay somewhere that meets all of their needs, without which leaving home for the night becomes almost impossible."*
